We are delighted to invite you to
"The Principles of Orthopaedodontics"
a one-day professional seminar on the 30th of September 2023 hosted by Orthologics.

This immersive course aims to enrich your understanding of facial growth dynamics and shed light on the modern challenges posed by nutrition's influence on this intricate process.

During the seminar, esteemed expert, Dr Bert Botha, will demonstrate invaluable results utilizing fixed **Orthologics 4D appliances™** that promise to revolutionize your Dental and Orthodontic practice. By participating, you will gain the knowledge and insight on how to elevate your patients' overall health, breathing, growth, and overall well being significantly.

As a testament to the value of this educational experience, attendees will be granted 5 CEU's upon successful completion of the seminar.

Furthermore, this event presents an exclusive opportunity to explore enrollment in a comprehensive training program "**Orthopaedodontics the 4 Dimensions of success**" paving the way to mastery in this specialized field.

Mark your calendars for this transformative event, promising a fresh perspective on orthodontics. Reserve your spot promptly by contacting us at [**+27 12 010 5253**](tel:+27120105253).

We eagerly anticipate your presence on the 30th of September, 2023, for this unforgettable event, where you will discover how to expand your practice and provide unparalleled support to your patients.
